

# Turn your beer bottles into glass cups!

**Step 1 – Grab a beer bottle preferably with thick glass such as corona bottles. Tie a string just above the label on the empty bottle.**

**Step 2 – Keep the string tied and soak it in lighter fluid.**

**Step 3 – Put the string back on the bottle and hold it horizontally. Light the sting rotating the bottle so the flame spreads.**

**Step 4 – After you hear the crack, pour cold**

**Step 4 - After you hear the crack, pour cold water on the string and the top of the bottle will fall off.**

**Step 5 - Now grab sandpaper and sand the edges of the bottle till it is smooth.**
